BDA400 | Data Science Tools and Techniques

Assignment 6
Technical Analysis using R
Visualization Phase

Student name: SunilKumar Chandaluri

Assignment value: 15%

Due: Session 15

Submission file: Chandaluri_SunilKumar_BDA400_A06.pdf

Project description

An interactive R Shiny portfolio dashboard that retrieves historical stock prices, displays line, area, and candlestick charts, supports daily/weekly/monthly aggregation, overlays technical indicators (SMA, EMA, RSI, MACD), and annotates moving-average crossover Buy/Sell signals with configurable periods.

Assignment repository (proposed URL)
